Darker than a thousand suns. Village coven prepares to sacrifice abducted teenager in abandoned nuclear power station. Critical mass enables ancient satanic forces to resume control. Well, we knew that, sort of. Luckily, teenager has unsuspected powers for good. I liked the opening pace and build-up and the fossil dinosaur animation sequence. At the end, the hero's friend says, 'I've got a nasty feeling that this isn't all over yet.' Me too, but this book and its expected sequel(s) will attract some readers.
